

## MOUNTAIN BIKE DEVELOPMENT – UPPER ROCK LAKE PARK – LAKE MILLS

The Parks Department is looking for volunteers to work on a progressive mountain bike trail system where users can improve their skills and enjoy healthy outdoor recreation. The trails proposed offer a wide range of experiences, from the beginner trail on the main loop to a variety of more challenging trails further into the property. The trail system is intended to be a bike-optimized, multi-use, and human powered network focused on stacked loops that allow flexibility in outing length and exertion.

Please watch the Parks Department website for volunteer work dates.

Please also complete the [Volunteer Release Waiver](#) prior to working on any County Park volunteer project.
